

## **J. Josephson, Inc. Company History**

J. Josephson, Inc. was founded in 1965 in New York City. In 1969 the company moved to its current headquarters in South Hackensack, New Jersey. Today, J. Josephson, Inc. is one of the largest manufacturers of contract wallcovering in the world. Our manufacturing facility is in South Hackensack, New Jersey, USA, with an affiliate manufacturing facility in Canada and warehousing in Holland. Our product is sold and distributed in over 35 countries worldwide.

J. Josephson, Inc. is a skillful and capital-intensive company, which utilizes state-of-the-art technology and computerized equipment. Our R&D and leading design efforts are concentrated in our South Hackensack design center, providing value-added product to commercial market users.

The Vycon ® and Symphony ® wallcovering brands are manufactured by J. Josephson, Inc., and sold through distributors who market these products to: Designers/Specifiers, Architects, Contractors, and property owners. These brands cater to the: Hospitality, Corporate, Healthcare, Government, Education, Store Planning, Property Management, and the Residential Interior Designer markets.
